

RAVEN IS ENVIRONMENTAL JUSTICE POWERED BY YOU

RAVEN supports Indigenous Nations who are upholding their rights and title in court. We do this through our fundraising and public education campaigns. Indigenous-led litigation is sparking transformative change across Canada, and we are grateful to help amplify these voices and support their access to justice – creating a path toward a more just future for all.

TOGETHER, WE'RE BUILDING A MOVEMENT FOR LASTING SYSTEMIC CHANGE.

RAVEN IS ENVIRONMENTAL JUSTICE POWERED BY YOU

In 2009, RAVEN was founded with the goal of changing the legal system from the inside out. The RAVEN staff and Board believe in a future where Indigenous rights are upheld across the country. Like our namesake, the northwest coast trickster bird Raven, we take on challenges that very few are willing to tackle. By doing so, we are reshaping the landscape and transforming the future. RAVEN works to support Indigenous Peoples in enforcing their rights and title in court to protect their lands, sovereignty, and ways of being. When we partner with Indigenous Nations, we raise both funds and awareness for their legal actions. Every campaign we take on is an opportunity to redefine justice through setting legal precedents, to return stewardship to First Peoples by advancing Indigenous rights, and to take action for our shared futures by establishing lasting environmental legacies.
